**GRAHAM ENGINEERING CORPORATION'S AMERICAN KUHNE™ BRAND ANNOUNCES SPRING SPOTLIGHT™ MEDICAL EXTRUSION & SECONDARY OPERATIONS CONFERENCE**

***Polymer & medical device development expert Len Czuba will keynote the May conference***

Graham Engineering Corporation director of business development – extrusion, Steve Maxson, announces the spring [Spotlight™ Medical Extrusion & Secondary Operations Conference](#) to be held May 23<sup>rd</sup> at the company's technical center in York, Pennsylvania.

“The focus of our Spotlight conferences is on medical extrusion and secondary operations such as over-molding and braiding for catheters and delivery systems,” explains Maxson who is the conference organizer.

“It is my pleasure to announce Len Czuba of Czuba Enterprises as the keynote speaker. A 30-year veteran of polymer synthesis, compounding, and material development in the medical device industry, his product development experience and polymers expertise assist partner firms to take products, especially medical devices, from concept to market,” stated Maxson.

*Graham Engineering Corporation's Steve Maxson*

Graham Engineering Corporation organizes two Spotlight™ Conferences annually in varying locations to address important developments and new technologies in medical extrusion and secondary operations.

Steve Maxson's background combines disciplines from the fields of medical extrusion technology and medical device manufacturing. His career includes roles with Raumedic Inc., Vante, and American Kuhne, now a brand of Graham Engineering Corporation.
