Press Release

York, Pennsylvania, USA

August 30<sup>th</sup>, 2018

**MICHAEL WAGNER APPOINTED BUSINESS DEVELOPMENT DIRECTOR AFTERMARKET**

Robert Deitrick, vice president global sales and service for Graham Engineering Corporation, has appointed Michael Wagner as business development director aftermarket. Mr. Wagner's responsibilities are global.

"Mike's knowledge of plastics processing along with his track record in supporting customers' aftermarket needs make him a welcome addition to the team," said Mr. Deitrick. "His experience leading the development and delivery of spare parts, tooling, retrofits, rebuilds and field service programs make him a capable source of support for our customers."

Mr. Wagner most recently served as vice president aftermarket for The Conair Group and joins the company with a career spanning more than 30 years of progressive responsibility in the industry including marketing, sales, product, and engineering management roles with Transformer Engineering, LLC, Colormatrix, Micro-Poise Measurement Systems, Demag Plastics Group, Motan Incorporated, Arburg Incorporated, Calgon Carbon Corporation, and Westinghouse Electric.

He holds a BSc degree in industrial engineering from Virginia Tech where he also completed post-graduate work in operations research. He also earned an MBA in Marketing from Carnegie Mellon University.
