**LANE HAYES APPOINTED REGIONAL SALES MANAGER FOR BLOW MOLDING SYSTEMS**

Robert Schroeder, business development director of blow molding systems for Graham Engineering Corporation, has appointed Lane Hayes to be regional sales manager for blow molding systems in the southeastern United States and Mexico.

Mr. Hayes's responsibilities include Mexico and the states of Alabama, Arkansas, Florida, Georgia, Louisiana, Maryland, Mississippi, North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia.

"Lane's market has comprised industrial clients, custom molders, extruders, and in-house manufacturers. His ability to assess technical requirements and coordinate resources to deliver results will benefit our blow molding customers," said Mr. Schroeder.

Lane joins the group from Milacron where he served as senior certified pre-owned, OEM, and auxiliary sales engineer. He previously held technical sales and project management roles with contractor supplier Gajeske, Inc. and pipe manufacturer Georg Fischer Central Plastics.

He holds an AS in industrial business management from Oklahoma Panhandle State University, a Bachelor of General Studies (interdisciplinary degree in business and civil engineering) from Texas Tech University, and an MBA from the University of Phoenix.
